

Tow Ball Protector

This new tow ball protector is an ideal product to cover every protruding tow hitch. Manufactured from a flexible polymer to dampen the impact of sudden contact with person's shins.

Prevents:

- Injury to legs
- Rust to ball
- Lubricant loss

The Shin Guard is simply pushed over the tow ball and attached to the tow hitch chain loops with the integral polymer coated anti-theft wire keeper rope.

Ideal for:

- Automotive Industry brand name advertising. Individual inserts for each brand name required.
