

Window Shims

Window Shim Long

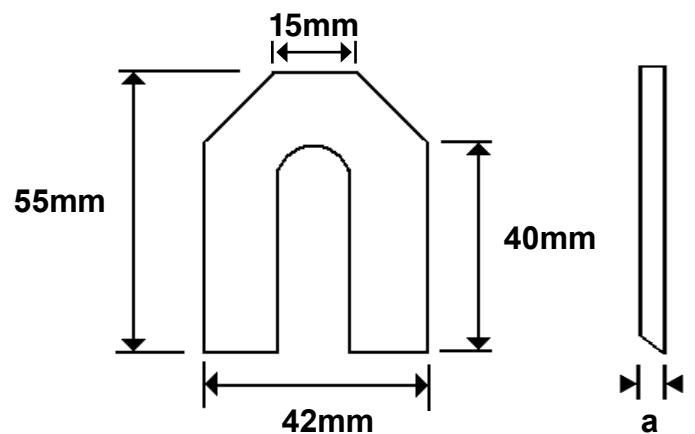

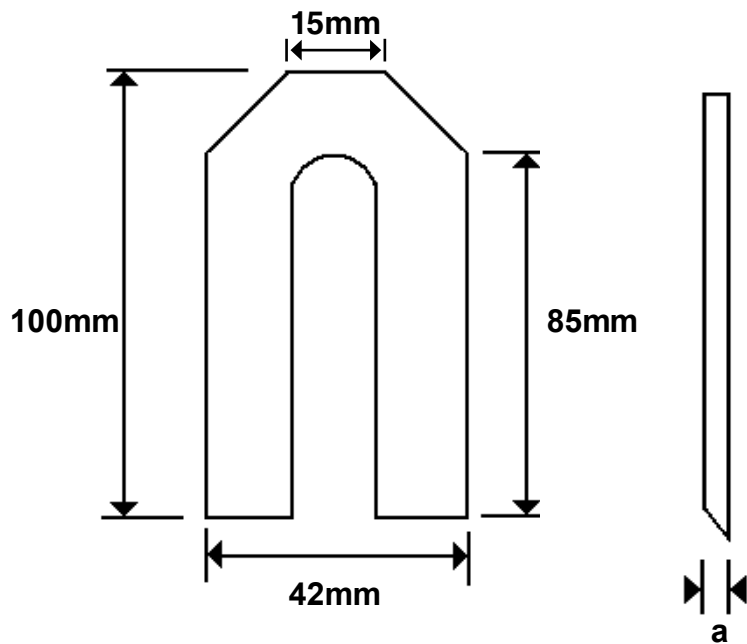

Window Shim Short

Description

The new Novapacker is a finger shim mainly used for levelling window frames, door frames and battens during their installation on site.

The packers are manufactured from a strong durable polymer to withstand high loads and the slot will fit around any bolt diameter up to 15mm.

Product Code	Thickness (a)	Quantity / Bag
WSS1	1.0mm	200
WSS2	2.0mm	200
